

Corrugated Loom Tubing

APPLICATIONS

- Protect wires from abrasion
- Route and manage a variety of wires and cables, including fiber optic
- Bundle wires in control panels
- Contain and organize wire harnesses
- Route wires in automotive, truck, trailer, conversion van, recreational vehicle and marine industries

FEATURES

- Impact and crush resistant
- Available in slit and solid wall design
- Available in standard colors of yellow and orange
- Available in polyethylene and heat stabilized nylon

BENEFITS

- Provides excellent abrasion resistance
- Easy installation for applications with and without breakouts
- Useful for identification of fiber optic applications
- Can be used in many applications

Corrugated Loom Tubing Fittings

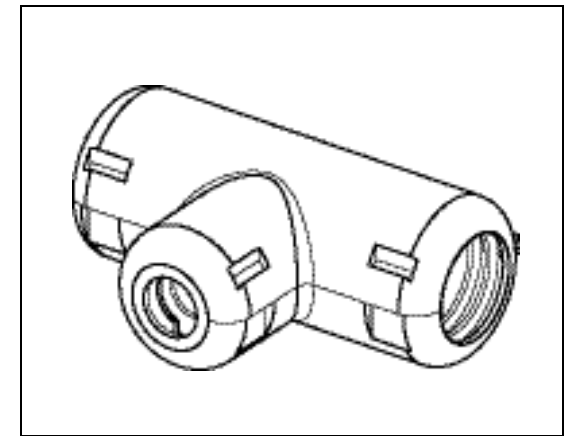

FEATURES

- Fast assembly
- Virtually eliminates taping
- Easy to assemble
- Locking latch design
- Durable polyethylene shell
- Works with most popular sizes of Corrugated Loom Tubing

BENEFITS

- Reduces production time
- Improves system appearance
- Reduces operator fatigue
- Secures fittings firmly in place
- Protects wires
- Provides easy selection of fittings for an application

PRODUCT BULLETIN

Corrugated Loom Tubing and Fittings

PANDUIT® offers a full-line of Corrugated Loom Tubing and Fittings for wire harness and cable applications. Corrugated Loom Tubing (CLT) provides users with an economical solution that features efficient installation and complete abrasion protection. Available in heat stabilized nylon and polyethylene materials, CLT is suitable for a wide range of environments. It is also available in both slit and solid wall construction to facilitate easy installation in a variety of applications. PANDUIT's new line of Fittings provide a secure way to join CLT at junctions and breakouts while improving the appearance of wire harnesses.
