Tool Less Snap-in Filler Panel, 19"W x 1.75"H, 1 rack unit

OR-BFPT-1RU-10

Ortronics tool less snap-in filler panels are used to fill open rack units in racks and cabinets where separation of cold air and hot air is required. They are designed to work effectively with equipment and Ortronics flat, angled or curved patch panels. Pack of 10.

features & benefits

- **The tool less snap-in filler panels unique design allows them to snap into 19" EIA/ECA-310-E compliant tapped or 3/8" square hole mounting rails without modification:** Eliminates the need to stock two different types of panels.
- **The patent pending design does not require field modification to fit a tapped hole:** Panel can be swapped back and forth between cabinets or racks with tapped or square holes as necessary.
- **Specially designed clips:** Allows the panels to snap into mounting rails as thick as .187" (typ. EIA rack) or as thin as .078" (some server cabinets).
- **Ridges along the top and bottom rear edges of the panel:** Makes a seal without creating a tolerance build when using multiple filler panels.

specifications

General Info

Type: Accessories
Component Type: Filler Panels

Construction Information

Component1: Panel
Finish Plating1: Black
Material1: PC/ABS

Dimensions

Height Metric: 45 mm
Height U S: 1.75"
Width Metric: 483 mm
Width U S: 19.00"
Rack Units: 1
