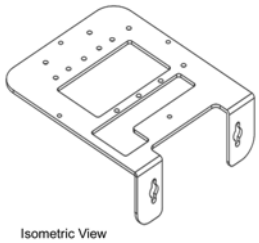
Model 1009-00

Economy Universal Right-Angle WAP Wall Bracket: White

Category: Wall and Hard Ceiling - Surface Mount - Right-Angle Brackets

Many WAP manufacturers recommend that access points be mounted in a horizontal orientation, which may be difficult when mounting on walls. Model 1009 mounts and secures WAPs from most manufacturers in areas where wall mounting may be required, such as residence halls, hotels, and other hard lid venues. Conduit, raceways, and cable can be terminated in the bracket to provide for a clean appearance. The WAP can be locked in place using the manufacturer's locking features.



Isometric View

Features & Benefits

- Conveniently install WAPs on walls and above ceilings
- Designed to enable wireless access points to be mounted in preferred horizontal orientation
- T-bar bracket accommodates access points from most vendors
- Can be mounted directly over telecommunications outlet

Technical Specifications

- Design: Right-angle mounting bracket for securing wireless access points on walls. Designed to mount the access point in the preferred horizontal orientation. Accommodates most vendors' access points.
- Includes adjustable T-bar bracket for attaching most vendors' APs
- Construction: 10 ga. white powder-coated steel
- Accommodates wireless access points up to 9" x 9"
- Size: 8.5 inches by 7 inches by 3 inches (215 mm by 178 mm by 76 mm)

Measurements *(Maximum values):*

- Height: 3.00 in.
- Width: 7.00 in.
- Depth: 9.00 in.
- Item Weight: 2.5 lbs.
- Shipping Weight: 3 lbs.

Includes

- (1) Right-angle wall mount
- (2) #6 - 32 screw (for attaching T-bar bracket)
- (4) #8 - 32 screw (for attaching Cisco mounting plate)
- (1) T-bar bracket
- (1) Tie wrap
- Installation Instructions

Available Accessories
