

## CommScope Announces New Uniprise® Category 6 and Category 5e Patch Cords – January 1, 2007\*

\*Delivery dates quoted pre-January 1 will be honored.

CommScope announces a new line of Uniprise Category 6 and 5e patch cords featuring a compact integrated boot and plug design. Additional features and benefits include:

- Compact Boot and Plug Design
  - Supports high density installations
  - Anti-snag boots for easier handling and routing
  - Cord fits into narrow jack locations such as network equipment
  - Integrated boot is secure to plug ensuring ultimate performance
  - Uniform appearance between the Cat 6 and Cat 5e patch cords
- Patch Cord Cable Design
  - Designed and manufactured with our high quality and performance CommScope cable/cordage
  - Made with stranded conductor for reliable performance and longer cable life
  - Compatible with universal cable wiring (T568A and T568B)
  - Cable colors support TIA/EIA 606-A standard
- High Performance
  - Maintains Uniprise channel performance
  - Backward compatible with Category 3, 5 and 5e
  - Exceeds cordage requirements of TIA 568B
- Packaging Enhancements
  - User friendly, easy to open package with perforated edge
  - Retail ready package with shelf hanging tabs
  - UPC barcode supports automated inventory management
- Product Offering
  - Available in 9 standard colors and 10 standard lengths
  - Additional colors and lengths can be manufactured upon request

Compact Integrated Boot & Plug Design

Current booted cord pricing will apply to the new patch cord offering. Price list will be updated Jan. 1.
