

Key Features

- Identical to original tester for easy replacement
- Pocket tester contains ring terminals to allow easy connection to handset; is quicker and easier than attaching handset to talk block at disk on door

Description

Our one-pair testers allow electrical access to an individual pair in a 25-pair BT, 50-pair CQF, or RLS blocks used in any of the interface terminals manufactured by Emerson Communications. The testers with leads can replace those in the cross-connect terminal, and the pocket tester is convenient for craftspeople to carry.

**One-pair
BT Pocket Tester
(F562632)**

**One-pair
CQF Pocket Tester
(F562633)**

**RLS Block
One-pair Tester
(F019128)**
