

Lugs for Medium Voltage Cables

These compression lugs are based on the standard tin plated connectors manufactured by Prysmian, and are suitable for indoor and outdoor locations. Connections are manufactured from thick wall copper tubing and incorporate single hole palm. The base of the compression barrel is effectively water blocked via incorporation of a waterproof seal during manufacture.

Lug Details

Anixter Number	To Suit Conductor Size (mm ²)	Stud Size (mm)
LUGMV-7010	70	10
LUGMV-9510	95	10
LUGMV-12012	120	12
LUGMV-15012	150	12
LUGMV-18512	185	12
LUGMV-24012	240	12
LUGMV-30012	300	12
