

# Ribbon Fan-Out Kits

A LANscape®  
Solutions Product

## features and benefits |

<b>Bend radius design consideration</b>	Fiber protection
<b>Snap-together furcation</b>	Eliminates epoxy; quick and easy to install
<b>Colored fan-out tubing</b>	Indoor use

The Corning Cable Systems Ribbon Fan-Out Kits provide the most compact, easy-to-install fan-out solution. Needing no more space than for terminating tight-buffered cables, these kits provide the ultimate solution for field-install connectors. The fan-out kit is color-coded to match the fiber color scheme and features a 900 µm fan-out assembly. Available with 12-fiber units in lengths of 25 or 36 in, the installer is provided flexibility with a variety of hardware options and excellent fiber routing capabilities.

## ordering information |

To order a ribbon fan-out kit, first determine the length of tubing required for connector termination, either 25 or 36 in.\*

Part Number	Length of Tubing	Number of Fibers per Buffer Tube**
<b>RIB-FAN-12</b>	25 in	12
<b>RIB-FAN-12-36</b>	36 in	12

\* 36 in is only recommended if installing into connector modules; 25 in is recommended for connector panels and other Corning Cable Systems hardware.

\*\* Refer to cable specifications.
