## Fast Ethernet Class A Media Converter

### Extend Network Distance

Deploy fiber in a strategic and economical manner by using Fast Ethernet converters, which can extend to distances that copper cannot reach.

- ▶ Integrate fiber into a 100BASE -TX copper environment
- ▶ Provides a fiber interface when connected to devices with RJ-45 ports

### Features

- ▶ Round trip delay of only 40 bit times, far below the Class II rating of 92 bit times
- ▶ Auto-Negotiation
- ▶ AutoCross™
- ▶ Link Pass Through
- ▶ Automated Link Restoration
- ▶ Remote Firmware Upgrade
- ▶ Can be used with any Point System™ Chassis
