specifications

86mm x 86mm shuttered faceplates shall be available in 2-port and 4-port configurations with spring-loaded doors that protect connectors from dust and debris when not in use. Faceplates shall offer modularity with all *PANDUIT*™ *MINI-COM*™ Modules for STP, UTP, and fiber optic applications. Faceplates shall have both label pockets and icon slots that enable proper port identification. Mounting screws shall be concealed in a manner that provides added tamper resistance and an enhanced appearance of installation.

technical information

Faceplate dimensions:	86.0mm x 86.0mm x 8.7mm (3.38"H x 3.38"W x 0.34"D)
Mounting options:	Screw holes with screw retention tabs
Number of ports:	2-port and 4-port configurations
Packaging:	Includes faceplate, faceplate cover, label, label cover, and two M4.0-0.7 x 25mm panhead mounting screws

key features and benefits

Modularity	Accepts all *PANDUIT*™ *MINI-COM*™ Modules for STP, UTP, and fiber optics which snap in and out for easy moves, adds, and changes
Spring loaded doors	Snap down over open connectors preventing dust and debris from touching contacts when patch cords are not connected
Concealed screws	Utilizes two-piece construction that allows a cover to snap over the base to hide mounting screws for added security
Labeling capability	Includes label pocket and icon slots that allow ports to be properly identified
Rounded edges	Promotes an aesthetic appearance of installations

applications

PANDUIT™ *MINI-COM*™ Faceplates offer an aesthetic solution that complements work areas while offering various features that enhance functionality. Offering modularity for installation flexibility, *MINI-COM*™ Faceplates support all *MINI-COM*™ Copper, Fiber, and Audio/Video applications.

As part of a global workstation outlet solution offered by *PANDUIT*, *MINI-COM*™ 86mm x 86mm

Shuttered Faceplates mount to select industry standard wall boxes as a two-piece design that snaps together to conceal mounting screws. *MINI-COM*™ 86mm x 86mm Shuttered Faceplates are built with spring loaded shuttered doors that remain closed when connections are not in use to protect connectors from dust and debris. Built-in labels and icon slots enable easier identification for lower cost of maintenance.
