applications

PANDUIT® OPTICOM® Trays, Drawers and Preloaded Trays are designed to manage and organize fiber distribution in areas where space is limited. They can also be used to manage cable from outside the facility. Enclosures can be used as an interconnect or

cross-connect in any telecommunications room and can use any standard FAP or FMP series adapter panel. *OPTICOM®* Trays and Drawers are completely modular and can manage both fiber and copper cables.
