

Opticom® QuickNet™ Rack Mount Fiber Cassette Enclosures

specifications

The fiber cassette enclosure shall house, organize, manage and protect fiber optic cable, terminations, splices, connectors and patch cords. Enclosure shall accommodate all Panduit pre-terminated MTP* cassettes, fiber adapter panels (FAP) and fiber mount panels (FMP), and associated trunk cables, connectors and patch cords, and shall include integral cable management and bend radius control for transition to vertical cable managers. Fiber optic enclosure shall be constructed of steel material. Molded front and rear doors shall be removable for cabling and connector access and installation. A flat front door shall enable access to fiber without moving the drawer. Enclosure shall provide full front access with a drawer that slides out and tilts down regardless of how many enclosures are stacked together. 1 RU enclosure shall be available in an open-access version which allows patch cord access from both top and bottom of the enclosure housing. Enclosure shall have multiple knockouts for a variety of trunk cable entry points.

technical information

Dimensions:	FCE1U, FCE1UA:	1.72"H x 17.6"W x 16.8"D (43.8mm x 447mm x 426.5mm), 1 RU
	FCE2U:	3.47"H x 17.6"W x 16.8"D (88.2mm x 447mm x 426.5mm), 2 RU
	FCE4U:	6.8"H x 17.6"W x 16.8"D (172.7mm x 447mm x 426.4mm), 4 RU
Mounting:	Integral mounting flange for installation in 19" wide EIA-310 racks	
Accessories:	Mounting hardware and accessory kit with labels included	

key features and benefits

Modular design mounts up to 4 Opticom® QuickNet™ Cassettes or FAPs per RU	Provides higher patch field density in fewer rack units saving valuable space
Works with all Panduit® Opticom® QuickNet™ Fiber Optic Cassettes and Fiber Adapter Panels	Provides versatility and flexibility with a fully modular solution for a variety of pre-terminated installations, FAP and field termination, and splicing installations. Works with all Panduit LC, SC, ST, MT-RJ and MTP* fiber adapter panels and cassettes
Hinged, swing down front door	Enables access to fiber optic patch cords without needing to move drawer for easier moves, adds, and changes; enables stacking for reduced real estate
Slide-out, tilt-down drawer	Offers total front access to all patch cords and rear cables for in-cabinet and top-of-rack mounting locations
Integral cable management	Ensures proper cable routing, bend radius control, and rear slack storage for all patch cords, interconnect cables, and trunk cables
New fiber optic splice module	Can fusion splice up to 96 fibers per RU in a single enclosure with one-to-one splice-to-patching ratio
TIA-606-A compatible labeling	Standards-based, mechanically printed labeling of fiber connectivity, patchfields, and enclosures enables clear and accurate labeling for easy moves, adds and changes

applications

Opticom® QuickNet™ Rack Mount Fiber Cassette Enclosures provide a system for managing fiber terminations, connections, and patching in all types of applications. The enclosures are a component of the Opticom® QuickNet™ Fiber Cabling System. They are ideal for fast, reliable patch field creation in cross-connect or inter-connect main distribution areas (MDA) or horizontal distribution areas (HDA) for storage area network (SAN) patching. The enclosure can also serve as a transition point for

pre-terminated MTP* interconnect or trunk cables patched to active equipment in data center server cabinets or LAN switch racks. The enclosures provide high patch field densities with the FCE1U housing up to 96 fibers in 1 RU, the FCE2U housing up to 192 fibers in 2 RU, and the FCE4U housing up to 288 fibers in 4 RU. Integral cable management, bend radius control, and slack management features protect fiber optic cables, patch cords, and connectors to ensure end-to-end signal integrity.

Fiber slack spool 1 RU:	FMS1
Fiber slack spool 2 RU:	FMS2
Bend radius clip:	FEBC

^Substitute for fiber type:
X = (OM3/OM4 – 10Gig™ 50/125 µm);
5 = (OM2 – 50/125 µm);
6 = (OM1 – 62.5/125 µm);
9 = (OS1 – 9/125 µm)
**Substitute for length in meters; 1, 2, 3, 5 and 10 are standard lengths.
Contact Panduit Customer Service for other available lengths.
