The cable manager has 6-in smooth plastic fingers and two pass through openings to allow patch cords to enter and exit in an organized manner.	

Hardware (provided)

M6 x 16 Phillips slot screws (4)

Cage nuts (4)

Tools required (not provided)

Cage nut tool

Phillips screwdriver

Installing cage nuts

Attach cage nuts to the vertical mounting flanges to install horizontal cable organizers.

Caution: Install cage nuts horizontally, with the ears engaging the sides of the square hole. Do NOT install cage nuts vertically with the ears engaging the top and bottom of the square hole.

1. Insert the cage nut into the square hole by hooking one ear of the cage nut assembly through the far side of the hole.

Note: Install the cage nuts on the interior of the vertical mounting flanges.

2. Place the cage nut tool (not provided) on the other side of the cage nut and pull to snap it into position.

Adjust the depth of the vertical mounting rails

Install the horizontal cable manager

Installing and opening the hinged cover
