

WIREMOLD

CableSmart™ Series Nonmetallic Raceway

Dual-Channel 40N2 Series Nonmetallic Raceway Systems

With its tamper-resistant design, the CableSmart 40N2 Series Raceway is ideal for schools or office settings, where greater security is a requirement. The 40N2 Series Raceway from Wiremold/Legrand offers separate channels for power and communications cabling with a single cover.

*40N2 Series Raceway featuring
40N2F31 Device Bracket.*

Features & Benefits

- **Extremely tamper-resistant.** Perfect for school applications or anywhere additional security is a priority.
- **FiberReady® 2" [51mm] fittings.** The FiberReady Series of fittings snap on to overlap raceway base and cover for an aesthetic installation. Fittings are cULus verified for a 2" [51mm] bend radius and exceed the recommendations of TIA/EIA-569. They provide cable protection in lay-in and pull-through cable installations.
- **Available prewired.** Manufactured to job site lengths, raceway comes completely prewired, ready to install. Jobs can be packaged by area, floor, or building and shipped per job site requirements.
- **Electrical device identification for prewired jobs.** Eliminates guesswork and circuit tracking to speed additions and renovations.
- **Pre-punched mounting holes.** Faster and easier installation.
- **New transition fitting options.** Used to transition to PN03, PN05 and PN10 Series Latching Raceways.
- **Made of PVC material.** Lightweight and easy to cut.
- **High capacity device box options.** 40N2F55 C-Box allows both power and data devices to be installed in the power channel, greatly increasing cable fill capacity for data cabling.
- **Ivory and white finish.** Blends with any decor. Paintable using latex paint.
- **Corner drop feed.** Provides solution for feeding horizontal runs of raceway.
- **Datacom connectivity options.** Accepts industry standard and proprietary devices from a wide range of manufacturers to provide a seamless and aesthetically pleasing interface for voice, data, audio, and video applications at the point of use.

40N2 Series Raceway System Layout

40N2 Series Raceway Wire Fill Capacities

40N2 RACEWAY WIRE FILL CAPACITIES FOR POWER

	WIRE SIZE THHN/THWN	O.D.		NUMBER OF CONDUCTORS		MAX. NUMBER OF CONDUCTORS BOTH COMPARTMENTS
		Inches	[mm]	Comp. A	Comp. B

40N2 Series Raceway Profile

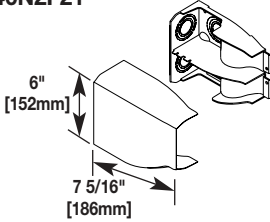

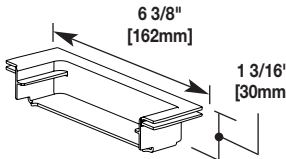

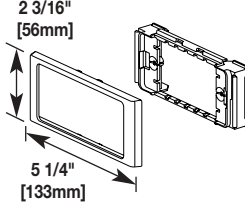

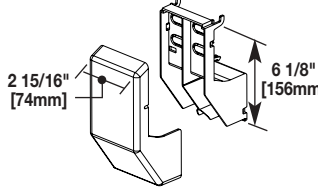

Catalog No./Item	Description/Specifications	Catalog No./Item	Description/Specifications
40N2B08* 	Two-Compartment Base – Two equal compartments. Use with 40N2 Cover only. 40N2B08 available in 8' [2.4m] lengths with pre-punched mounting holes.	40N2C08* 	Full Width Cover – Use with 40N2B08 Base. 40N2C08 available in 8' [2.4m] lengths.

*Add "V" suffix for Ivory finish or "WH" suffix for White finish.

40N2 Series Raceway Fittings

Catalog No./Item	Description/Specifications	Catalog No./Item	Description/Specifications
40N2FWC 	Wire Clip – Used to retain cables in raceway during installation.	40N2F15* 	2" [51mm] Bend Radius Full Capacity Tee – For branches at right angles. A full capacity tee fitting that provides separation of services and 2" [51mm] cable bend radius for UTP and fiber optic installations.
40N2F05* 	Base Clip – Covers seams between sections of 40N2 Base.	40N2F17* 	2" [51mm] Bend Radius Full Capacity Internal Elbow – A 90° internal corner with integral dividers to provide 2" [51mm] cable bend radius for UTP and fiber optic installations. Ideal for lay-in or pull-through installations.
40N2F06* 	Cover Clip – Covers seam between sections of 40N2 Cover.	40N2F19* 	2" [51mm] Bend Radius Full Capacity External Elbow – A 90° external corner with integral dividers to provide 2" [51mm] cable bend radius for UTP and fiber optic installations. Ideal for lay-in or pull-through applications.
40N2F11* 	2" [51mm] Bend Radius Full Capacity Flat Elbow – A 90° flat corner with integral dividers to provide 2" [51mm] cable bend radius for UTP and fiber optic installations. Ideal for lay-in or pull-through installations.	40N2F20* 	Blank End Fitting – Closes off raceway end runs. Can be used to feed raceway using 1/2" or 3/4" trade size conduit. Holes for conduit must be drilled. Use a step drill or other means.

40N2 Series Raceway Fittings

Catalog No./Item	Description/Specifications	Catalog No./Item	Description/Specifications
40N2F21* 	Divided Entrance End Fitting – FiberReady divided fitting to feed 40N2 Series Raceway. Includes 3/4", 1", 1 1/4", and 1 1/2" trade size KOs on back and top.	40N2F55 	High Capacity Device Box– Required for mounting power or datacom devices into a divided raceway application. One used per device location.
40N2F31*  <p>NOTE: CM-EPLA End Plates are required when using Wiremold communication modules and Pass & Seymour inserts. S2-EPL End Plates are required when using Ortronics Series II inserts. To mount Tracjack inserts, use 5507-4TJ or 5507-6TJ Faceplates.</p>	Twin Cover Device Bracket – Use for power or communications devices in a single compartment. Use with either 40N2 or 60N2 Series Raceway. Accepts 5507 Series Faceplates. For use with: <ul style="list-style-type: none"> • Ortronics TracJack Individual Jack System • Ortronics Series II Front-Loading, Module System • Pass & Seymour Activate Series Front-Loading Inserts • Wiremold Open System Communication Modules. 	40N2F74* 	Divided Transition Fitting – Makes transition from 40N2 Series Raceway to PN03, PN05, and PN10 Series Raceways.

*Add "V" suffix for Ivory finish or "WH" suffix for White finish.

5507 Series Faceplates

Catalog No./Item	Description/Specifications		Catalog No./Item	Description/Specifications	
5507AD*	Modular Furniture Adapter – • For mounting Activate modular furniture bezels and other modular furniture adapters. Not for use with rectangular (decorator) style devices	ORT P&S OPEN	5507RJ*	Dual RJ11/RJ45 Connector Faceplate – • For mounting one or two RJ type connectors – has one opening and a KO for the other.	ORT P&S OPEN
5507B*	Blank Faceplate – For covering unused compartments in the device bracket.		5507FRJ*	Flush Dual RJ11/RJ45 Faceplate – Same as 5507RJ except the connectors are recessed to provide a flush installation.	ORT P&S OPEN
5507D*	Duplex Faceplate – For covering duplex style devices. • Accepts 106 Frame.	ORT P&S OPEN	5507-4TJ*	Ortronics® Faceplate – For mounting Ortronics datacom inserts. • Accepts four TracJack Devices.	ORT P&S OPEN
5507R*	Rectangular Faceplate – For covering rectangular style devices.		5507-6TJ*	Ortronics® Faceplate – For mounting Ortronics datacom inserts. • Accepts six TracJack Devices.	ORT P&S OPEN
5507S*	Rectangular Spacer – For mounting commercial device plates. Installs between the device bracket and a device.		CM-EPLA	End Plates – Includes two outlet identification labels with clear covers and two matching screw covers. Required for mounting Pass & Seymour Activate and Wiremold Open System communication modules into 40N2 Series device brackets.	
5507SW*	Switch Faceplate – For covering standard toggle switches.		S2-EPL	End Plates – Includes two outlet identification labels with clear covers and two matching screw covers. Required for mounting Ortronics Series II modules into 40N2 Series device brackets.	
5507T1*	Single Receptacle Faceplate – For covering single receptacles – 1.59" [40.4mm] diameter.				
5507T2*	Single Receptacle Faceplate – For covering single receptacles – 1.41" [35.8mm] diameter.				

NOTE: All face plates have a standard measurement of 4 1/4" x 1 7/8" [108mm x 34mm].

* Add "V" suffix for Ivory finish or "WH" suffix for White finish.

Datacom Connectivity Options

Now you have a wide range of options for providing datacom connectivity into Wiremold® Cable Management Systems. They are:

- Ortronics® TracJack® and Series II Modular Connectivity Solutions
- Pass & Seymour Activate™ Modular Inserts
- Open System Communication Modules

Use these icons to determine connectivity options for each Wiremold System component:

Ortronics® Connectivity

TracJack® Individual Jack System

- Front-loading, snap-in design supports future moves adds and changes
- Inserts for voice, data, audio, and video
- Available Category 3, 5e, 6, USOC 6-position, and other media
- Flat or angled 45° exit configurations
- Choice of 13 colors and color matched to Wiremold Systems
- Universal T568A/B wiring format

Series II Front-Loading, Module System

- Module design features easy snap-in front-loading design
- Linear 110 punch down format for easy termination
- Inserts for voice, data, audio, and video
- Available Category 3, 5e, 6, USOC 6-position, and other media
- Available in flat or angled 45° exit configurations
- Color matched to Wiremold Systems

Open Connectivity Solutions

Wiremold Open System Communications Modules

- Accommodate a wide range of manufacturers' communications outlets including keystone jacks, as well as proprietary solutions from Avaya (Systemax) and NORDX
- Modules insert into a wide range of Wiremold Systems
- Pre-punched faceplates accept common communication devices

NOTE: For more information on integrating connectivity into Wiremold Cable Management Systems contact the Wiremold Applications Engineering Team or your local Wiremold Sales Representative.
