CU-8 – Area of Rescue Command Unit

Description

This fully Integrated Command Unit accommodates up to 8 ADA-compliant Area of Rescue Stations. The unit's Strobe/Sounder indicates an incoming call, and LED's indicate the calling location.

Features

- Accommodates up to 8 ADA compliant Area of Rescue Stations
- Stations are powered by Command Unit
- LEDs on Command Unit indicate calling Station and line status
- On-site calling requires no outside phone lines
- Off-site calling requires only one phone line for up to 8 Stations: line seizure eliminates need for dedicated phone line
- Blinking LEDs indicate Stations that are waiting to be answered. When first call is completed, 2nd call is automatically placed, phone rings and strobe/siren is activated
- Siren is activated when Emergency call is first detected, shuts off when call has been answered
- Strobe is activated when Emergency call is first detected and remains active for duration of call
- Built-in UPS provides 4 hour power back-up in case of power failure
- Includes built-in phone
