

Description

Talk-A-Phone's ETP-MT/R OP5 Emergency Phone Tower is an ideal security solution for remote and high-risk areas. Standing over eleven feet tall (including the camera arm), this vandal-resistant tower serves as a great deterrent to crime. An always-lit LED Blue Light mounted atop the tower arm provides high visibility and gives passers-by a sense of security. Emergency call can be placed with a simple push of a button. At the same time, the LED Blue Light begins to flash, attracting attention to the location. The Emergency Phone faceplate is illuminated at all times for clear visibility during the night.

Talk-A-Phone's ETP-MT/R OP5 Emergency Phone Tower includes an AD Delta Dome PTZ camera mounted to a camera arm above the tower, which can be activated through the emergency phone. Towers are often used at university and college campuses, parking facilities, shopping malls, medical centers, industrial campuses, transit facilities and remote areas.

Features

- Integrated AD Delta Dome PTZ camera can be automatically activated through an auxiliary output of the emergency phone
- Attention-getting LED Blue Light is included and mounted atop the unit. The LED Blue Light is continuously lit and flashes for duration of a call when "EMERGENCY" button is pressed to draw attention to the unit
- Emergency Phone faceplate is illuminated at all times by an LED Panel Light
- Vandal-resistant structure and coating designed to resist extreme weather conditions
- A variety of signage, graphics and color choices are available
- ADA-compliant

Specifications

Dimensions (W x D x H):	12.0 x 10.0 x 143.3 in. (305 x 254 x 3640 mm) with 2 in. radius corners (height includes arm and strobe)
Weight:	395 lbs. (179 kg)
Construction:	0.25 in. steel
Coating:	High-gloss, multi-layer, corrosion-inhibitive system with resistance to UV-fade and graffiti protection
Colors:	Safety Blue is standard. Available in custom colors.
Signage:	3.25 in. high reflective white "EMERGENCY" lettering with wide-angle visibility is standard. Available in custom colors, lettering and graphics.
Lighting:	<p>LED Blue Light: 209 lumens peak, 78 flashes per minute, 70% of initial lumens after 50,000 hours of operation</p> <p>LED Panel Light: Ultra bright LEDs, 50,000 hour lifetime</p>
