

# Station Protector Housings

2-line housing, 2 SPD 356-XY TandAction™ Hybrid Screw Terminal Station Protectors

CORNING

The CP Series is a family of Station Protector Housings designed for one- to twelve-line outdoor installations. The CP Series enclosures provide superior protection against ultraviolet (UV) degradation and extreme temperature fluctuations, while minimizing moisture penetration for overall weatherability enhancement.

The CP Series Station Protector Housings feature Corning Cable Systems SPD 356-XY Screw Terminal TandAction™ Hybrid Protector.

The CP-200 Station Protector Housings can accommodate up to 2 station protectors; the CP-600 accommodates up to 6 station protectors, and the CP-12 will hold up to 12 TandAction™ Hybrid Screw Terminal Station Protectors.

The compact size and aesthetic appearance of the CP Series Station Protector housings make them ideal for residential installations.

Part Number: CP-200-2Z0

## Features and Benefits

### **Environmentally hardened outdoor housing for wall or conduit mounting**

Withstands extreme environmental conditions

### **Enclosures have overlapping edges**

Provides excellent environmental protection from water and sand/dust

### **Compact, low-profile enclosure**

Allows installation and access in small spaces

### **Slide-in grommet**

Allows telco and premises wire entry and facilitates cable routing

Part Number: CP-200-2Z0
