

## Front Hinge Bracket

Front Hinge Bracket

### APPLICATION

Facilitates the process of terminating Ethernet cables to the back side of patch panels when access to the rear is limited. The hinge allows the panels to be rotated forward to multiple angles to fully support the punch down process.

### FEATURES

- Allows for front-end termination when rear access is unavailable
- Allows for cable termination in the vertical, 90° or 120° positions
- Supports up to three 1RU (rack unit) devices (patch panels or wire management)

### STANDARDS COMPLIANCE

cULus listing  
Complies with TIA/EIA-568-B

### PHYSICAL SPECIFICATIONS

Dimensions: 5.22"H x 1.08"W x 3.18"D  
Materials: 16 Gauge steel  
Finish: Black Powder Coat

### DESIGN CONSIDERATIONS

- Attaches to standard 19" or wall mount bracket
- Quick release, easy-access levers
- Fasteners latch automatically when hinge is restored to its original position

### WARRANTY INFORMATION

For a copy of Leviton product warranties, log on to [www.levitonvoicedata.com/warranty](http://www.levitonvoicedata.com/warranty).

### TYPICAL SPECIFICATION

This bracket is sold separately from Leviton Patch Panels and can be used in either a rack or wall mount configuration. To install, simply align bracket in desired location and secure the bracket using supplied screws to the rack or wall. When bracket is firmly mounted, close the bracket and attach the panels and/or cable management devices to the hinge. Be sure to leave enough slack when terminating to give the cable the necessary allowance needed for movement.
