- Vented shelf surface for increased air flow around components.
- 19" version holds equipment up to 17.75" wide.
- 23" version holds equipment up to 21.75" wide.
- 25" version holds equipment up to 23.75" wide.

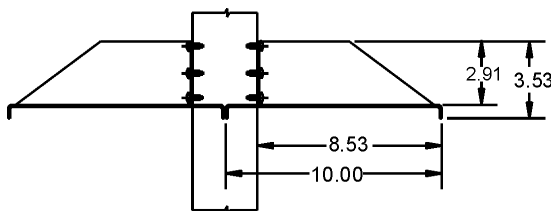

## DOUBLE-SIDED VENTED LOW PROFILE SHELF

Maximize the use of your rack space with the new Double-Sided Vented Low Profile Shelf from CPI.

This shelf was designed to support low profile electronic equipment that weighs up to 60 lb. The reduced height design requires only 3.53", saving valuable rack space. Bottom ventilation enhances air flow circulation for maximum cooling required in high density installations. Mounts on 3" double-sided racks only. Mounting hardware not included.

Please contact your authorized CPI Distributor or CPI Customer Service Representative for more information or go to [www.chatsworth.com](http://www.chatsworth.com).
