

Product Cut Sheet

5" DEEP CEILING ENCLOSURE FOR WIRELESS ACCESS POINTS

TELECOMMUNICATION ENCLOSURES

The AAT-CAP is a ceiling mounted enclosure for a wireless access point or bridge. It is designed to be located within drop ceilings and requires a space that is 14-1/2" long by 12" wide and 5" high. It is supported from the drop ceiling "grid" with included brackets and a wire to building structure. Enclosures are painted white to blend with ceiling tiles.

AAT-CAP has one edge-protected cable access port that includes a fire rated foam sealing kit making it suitable for use in air handling spaces. A fully hinged locking door supports equipment. Several door faceplates are available to match equipment. Blank faceplates are also available. All faceplates include equipment mounting brackets.

■ Cable Entry/Exit

- (1) 3" wide x 3/4" high edge-protected cable access port
- Includes approved fire-rated foam sealing kit

■ Equipment Support

- Removable faceplate, door mounted (ordered separately)

■ Materials

- Enclosure: .060" thick sheet aluminum, riveted construction
- Foam Sealing Kit: Polychloroprene latex compound

■ Packaging

- 1 Enclosure/Carton

■ Approvals

- UL Listed - Communications Circuits Accessory
- UL File Number/E185147 (UL 1863; UL 50; UL 2043)

■ Specifications

- Enclosure: 10-1/5" wide x 13-1/4" long x 5" deep
- Product Weight: 8 lb Enclosure

■ Installation

- Includes installation brackets for 2' ceiling tile grid
- Use approved wire to attach box to building structure
