Power Outlet Unit (POU) Mounting Bracket Locations

Note location of #12-24 positioning screw in each spacing scenario. Install the positioning screw first to help locate the bracket in the correct location and orientation relative to the cabinet frame. See page 3 for bracket and screw installation instructions.

#12-24 Positioning Screw
(Bottom center slot of bracket rests on positioning screw)

#12-24 Positioning Screw
(Top center slot of bracket rests on positioning screw)

#12-24 Positioning Screw
(Bottom center slot of bracket rests on positioning screw)
Power Outlet Unit (POU) Mounting Bracket Installation (CVPDUB)

Use two (2) #12-24 trilobular screws to mount each CVPDUB bracket to cabinet frame. Tighten screws to 45 in-lb (+/- 5 in-lb). Refer to Pages 1 and 2 for hole and slot orientation. Install buttons of Power Outlet Unit (POU) into CVPDUB bracket as shown.
