

Features

- Architectural Bronze color is pleasing in all settings
- UL 1598 Listed for Outdoor Installations
- ADA compliant
- Durable powder-coated epoxy finish to withstand the harshest environments
- Custom colors and graphics are available

GAI-Tronics' 234 series stanchion is part of a completely integrated emergency communications station. Designed for remote or high-risk areas, the stanchion provides solutions to security concerns at:

- College campuses
- Parking garages
- Sports arenas
- Transit platforms
- Shopping malls

The stanchion is designed to accommodate GAI-Tronics' RED ALERT® flush-mount telephones. The stanchion is easily located by potential users because it stands over nine feet tall, with large EMERGENCY graphics on all four sides. The highly visible model 530-001 L.E.D. Strobe, with "constant on" light, mounts on top of the stanchion for quick identification of stanchion location. Additionally, an L.E.D. panel light illuminates the surface of the telephone for nighttime use.

Note: The Model 234 Stanchion is not compatible with RED ALERT® surface-mount or retrofit telephones.

Specifications

Dimensions 10 W x 10 D x 114 H inches (0.25 x 0.25 x 2.89 m)
