

"ITI Technology Simplifies Your Life"

Affordable

The Economical Concord Express Home Security System Today many people face a difficult dilemma. They know their homes are attractive to burglars. They know that TVs, stereos, computers, phones, credit cards, cash and other valuables make their home an inviting target. And they know that, all too often, a simple break-in can lead to violence.

But for many people the cost of sophisticated security seems too high—or the quality of a budget system is too low. Fortunately, with Concord Express sophisticated easy-to-use security has never been more affordable.

The powerful new Concord Express offers a range of features designed to monitor your home and warn you of intrusion, fire, and potential environmental damage. Designed for maximum convenience, Concord Express is easier to use—and easier to expand—than any system in its class. Concord Express responds to the network of sensors you and your security dealer decide is best suited to your home and lifestyle. You get the added safety of secure Keychain Touchpad control and easy expansion—built in. Encrypted Learn Mode™ (ELM™) Technology secures every ELM touchpad transmission.

Concord Express Offers Convenient Remote Keychain Touchpad Control

Sophisticated Low-Cost Security

Concord Express—
The Fast Track To
Simple System Operation.

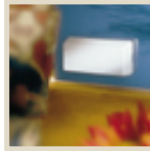

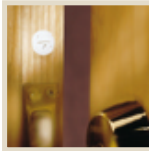

CONVENIENT KEYCHAIN TOUCHPADS

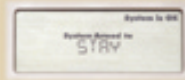

Concord Express is the ideal combination of affordability and protection, guarding your home and family against intrusion and fire 24 hours a day. And the system is very easy to operate because remote Keychain Touchpads give you simple on/off control.

And **Concord Express** gives you the choice to design a system to meet your exact needs and budget. Concord Express can respond to hardwire or wireless sensors, so it's easier than ever to expand your system when the time is right for you. Add a smoke detector in the basement or to the baby's room. Family members can't remember access codes? Code-free Keychain Touchpads make system operation easy for everyone.

THESE CONCORD EXPRESS FEATURES GIVE YOU
THE FREEDOM TO MAKE YOUR OWN SECURITY DECISIONS

More sensor choices. Detect motion, intrusion, glass breakage, smoke, heat, leaking pipes, furnace failure, and carbon monoxide. You can rely on Concord Express sensors to provide the extra sensory protection you need.

FIXED ENGLISH DISPLAY

LIQUID CRYSTAL DISPLAY

VACUUM FLORESCENT DISPLAY

More touchpad choices. Concord Express touchpads give you the information you want—in plain English. Ask your dealer about the touchpad options that simplify system operation while meeting the specific needs of your home and lifestyle.

The expandable Express. Extra power is built in to Concord Express so you can add more protection without being forced to buy a more expensive system.

ELM Technology

Encrypted Learn Mode™ (ELM™) Technology secures every ELM touchpad transmission.

Paging. Concord Express can automatically send a numeric message to your pager so you know when latchkey kids arrive home—or if they haven't.
