

Product Data Sheet

Single Wall High-density Polyethylene (HDPE)

Product Description

Single Wall HDPE has superior crush resistance, stiffness and impact strength with outstanding flexibility. The light weight and superior flexibility of this corrugated polyethylene innerduct gives the benefit of being easier to handle at the job site and means less wear and tear on expensive pipe placement equipment. All sizes of Single Wall HDPE come complete with a pre-installed 900 pound traceable pull rope.

Applications

Placed inside existing duct.

Product Data Sheet

Single Wall HDPE

Orange

Part No.	Description
398945	0.5 in.
398946	0.75 in.
224514	1 in.
224515	1.25 in.
224517	1.5 in.
224518	2 in.
398947	3 in.

Fittings

White

Part No.	Description
399158	Coupling for 0.5 in. Single and Dual Wall HDPE
399159	Coupling for 0.75 in. Single and Dual Wall HDPE
399160	Coupling for 1 in. Single and Dual Wall HDPE
399161	Coupling for 1.25 in. Single and Dual Wall HDPE
399162	Coupling for 1.5 in. Single and Dual Wall HDPE
399163	Coupling for 2 in. Single and Dual Wall HDPE
399164	Adapter for 1 in. Single and Dual Wall HDPE
399165	Adapter for 1.25 in. Single and Dual Wall HDPE
399166	Adapter for 1.5 in. Single and Dual Wall HDPE
399167	Adapter for 2 in. Single and Dual Wall HDPE
