

Overview

ALSD2

The ALS2 are high output, very low current draw, dual channel siren drivers. They are designed to work with alarm panels with limited current capability.

Specifications

- 6VDC or 12VDC operation.
- Two (2) channel operation - steady or yelp.
- Very low current draw.
- Parallel or series speaker wiring
 - 103 db @ 10 ft. @ 6V - 8 Ohms
 - 105 db @ 10 ft. @ 6V - 4 Ohms

106 db @ 10 ft. @ 12V - 8 Ohms
111 db @ 10 ft. @ 12V - 4 Ohms
Current draw range from .3 amp to 1.22 amp based on speaker resistance and supply voltage.

Board Dimensions (approximate)

2.5"H x 1.9" W x 1.1" D
