Availability	no longer available
Product description	
Description	Software licence (unlimited number of devices) for HiOPC network management and analysis software suite to integrate SNMP data into OPC applications. Extended functional range in comparison with HiOPC Basic, e.g. Network Analyst, MIB Template Generator and the preparation of user-defined parameters.
Type	HiOPC Enterprise
Order No.	943 775-305
Configuration	
Configuration functions	<ul style="list-style-type: none"> - integrating SNMP data into OPC applications - pre-built tag databases for Hirschmann devices - auto-discovery - user defined tags
Modules and supported components	
Modules and components	every SNMP device
Software requirements	
Operating system	Windows NT 4.0 SP5, Windows 2000, Windows XP Professional
Minimum requirement for Hirschmann agents	SNMP
Supported SCADA systems	data access specification version
Hardware requirements	
Processor	Pentium 100 MHz minimum
RAM	64 MB RAM
Hard disk space	20 MB free
Network	IEEE 802.3 compliant Ethernet networks with SNMP manageable devices
Scope of delivery and accessories	
Scope of delivery	to download from Internet (14 MB zip), online help, evaluation version with complete functionality for one IP adress
Operating conditions	
Function with module type	<ul style="list-style-type: none"> - monitoring and operation without any knowledge of SNMP - monitoring of all status such as e.g. network status, link, power supply, fan ... - SNMP trap support - dataviewer and communicator - network analyst - MIB template generator
Product variants	
Version + Nodes	full version
