GammaSeries

Tower—Client Viewing Station
Part Number—BCD420V-CWS-3D-1G

The BCDVideo Gamma Series, powered by HP, is designed specifically for rendering video in IP Video Surveillance applications. The solution is specifically designed to be in 24x7x365 environments and powerful enough to render high quality megapixel images. The solution is an open platform viewing station that will support VMS platforms such as Exacq, Genetec, Milestone, OnSSI, and others. The Client Viewing Station is rack-mountable via an optional rack mount kit (BCD420V-RMKIT).

*Video Management Software sold and licensed separately
*Monitor sold separately
