

ElementSeries

Tower Server—Video Recording Server

Part Number—BCD420V-S-OLA-4TB-2

The BCDVideo Element Series, powered by HP, is designed specifically for Low to Mid Camera Count IP Video Surveillance applications. The solution is ideal for DVR replacement, small retail, and business environments. The solution is an open platform server that will support VMS platforms such as Exacq, Genetec, Milestone, OnSSI, and others. The server is designed to run both the VMS recording software and the VMS client viewing software all from the server. Server is rack-mountable via an optional rack-mount kit (BCD420V-RMKIT).

*Video Management Software sold and licensed separately
