

Patch Kit, Touch-Up Paint

Bulletin
A80

Epoxy Patch Kit

Applications include sealing rivets, bolts, metal joints, seams and welds, cement cracks, pipe couplings, joints, and tees. Each kit has two tubes of material, application instructions, and a mixing stick. When the resin and hardener are mixed, a gray epoxy is formed which cures at room temperature, has high adhesion, and will not sag. It is resistant to oils, acids, and chemicals.
