## Carton Contents

- (2) Dust covers
- (2) 6-32 self-locking nuts

Tools Required

- 5/16-inch socket or nut driver

Specifications

	WCH-04P	WCH-06P	WCH-12P
Part Number	WCH-DUST-CVR	WCH-DUST-CVR-D	WCH-DUST-CVR-D (2 needed)

Installation

Step 1: Loosen the 6-32 self-locking nut holding the top right strain-relief bracket using a 5/16-inch nut driver but do not remove.

Step 2: Remove the vinyl cap from the pem stud.

Step 3: Place dust cover with TWO holes over the top right jumper port (and/or the bottom left jumper port for WCH-12P). Ensure that dust cover is over the pem studs and between the jumper strain-relief bracket and the housing.

Step 4: Place dust cover with ONE hole on the bottom right jumper port (and/or the top left jumper port for the WCH-12P).

Step 5: Adjust the dust cover to fit flush with the housing and secure with a 6-32 self-locking nut. Retighten the previously loosened nut where applicable.
