

# FDC® Unit Connector Panel, SC Adapters

6-in, 8 F, Single-mode (OS2)

CORNING

Corning Cable Systems offers a variety of panels and modules for use in the FDC® unit family of products. The panels are used with field-installable connectors or in applications where the preconnectorized cables are routed directly to the FDC unit housing. Both the panels and the modules may be equipped with 900 µm single-fiber or ribbon-fiber pigtails for pigtail splicing. Panels and modules are available with a variety of connector types. Plastic modules include molded-in areas for coiling fiber slack and protecting the minimum bend-radius of the fiber.

## Features and Benefits
