

Pretium EDGE® Solutions Mounting Bracket

for mounting 2U housings into 23-in racks or cabinets

When cabinet space within the data center is limited, Corning Cable Systems offers a range of mounting options to enable installation of Pretium EDGE® Solutions housings into overhead spaces. Brackets are available which allow mounting to existing overhead structures such as wire tray and ladder rack, and are available in both 2- and 4-rack-unit sizes. The 4-rack-unit brackets accommodate the Pretium EDGE Solutions 4U housing or up to four 1U housings, while the 2-rack-unit brackets accommodate up to two 1U housings. The low-profile brackets can be installed simply with only a screwdriver. Overhead installations allow complete racks or cabinets to be removed or relocated during upgrades or moves, adds and changes, and the fiber infrastructure doesn't occupy critical and expensive rack space.

Specifications

General Specifications	
Product Type	Accessories
Chemical Characteristics	
RoHS	Free of hazardous substances according to RoHS 2002/95/EG
