SCF-6 Ground Kit

Fits all SCF closures (two per kit)

CORNING

Corning Cable Systems Splice Trays use proven designs and fiber organization technology to provide optimum physical protection for fusion and mechanical splicing methods. The trays are engineered for use with both loose tube and tight-buffered optical cable designs. Their generous size prevents induced attenuation due to fiber bending.

The SCF splice trays contain organizers for a variety of popular splicing methods. The fusion splice organizer holds and protects the actual splice, thereby eliminating the need for extra parts. Each mechanical splice organizer provides a positive holding action for maximum splice protection during installation and use.

Features and Benefits

Craft-friendly design

Available for "end" or "through" splicing applications

Available for many splicing methods No stress placed on completed splices within tray

-F on closure part number requires 0.4-in tray (Fat) 0.4-in trays allow single-fiber or mass splices

Specifications

General Specifications	
Product Type	FOH Closures
Technology	Fusion Splice

Ordering Information

Part Number	SCF-KT-6GND
Product Description	SFC-6 Ground Kit, fits all SCF closures (two per kit)

SCF-6 Ground Kit

Fits all SCF closures (two per kit)
