6 F, Single-mode (OS2)

CORNING

Corning Cable Systems Wall-Mountable Interconnect Center (WIC) Connector Panels are offered in a variety of fiber counts for use with Wall-Mountable Interconnect Center Housings. Used with factory-installed or field-installable connectors, these panels and their compact, modular housings are ideal for use in building entrance terminals, wiring closets, open office, and other controlled locations where space is at a premium.

Available with a variety of industry-standard adapter types, WIC panels provide an efficient way to securely mate two connectors and offers multimode and single-mode applications in 6- and 8-fiber count options, plus 12- and 16-fiber count options with MT-RJ and LC duplex connector adapters.

## Features and Benefits

**Compatible with the wall-mountable splice center (WSC) and other interconnect hardware**

Easy expansion, high flexibility and future growth

**Easy access to individual connectors**

Simple management of future moves, adds and changes
