

Telescoping Strut Replacement – TSR20038

The Telescoping Strut Replacement is an innovative alternative to using strut-based trapeze or support structures to support cable tray, conduit or pipe. It eliminates the need for handling long lengths of strut and cutting sections of strut to size. The bracket telescopes to the desired length, attaches to threaded rod with a captive threaded nut at each end, and is locked in place by tightening a screw on a pre-installed steel band.

- Ready to use out of the box and eliminates the need for cutting sections of strut
- Captive threaded nuts enable fastening to threaded rod supports without loose parts
- Clearance holes help quickly create multi-level trapeze assemblies
- Supports up to four 2" (50 DN) conduits or four 2" (50 DN) water filled pipes at 10' (3 m) spacing
- Works with the KBT Wire Basket Tray Clip for securing wire basket cable tray
- Works with SCH Single-Piece Strut Clamps

Part Number	TSR20038
Material	Steel
Finish	Pre-galvanized
Rod Size (RS)	3/8"
Hole Size (HS)	1/4"
A	12.61" – 20"
B	11.36" – 18 3/4"
C	1.4"
D	0.81"
E	1.12"
Thickness (T)	0.04"
Static Load (F)	200 lb
Standard Packaging Quantity	25 pc
UPC	78285678956
UNSPSC	30101804

Static loads are assumed to be uniformly distributed.

WARNING

ERICO products shall be installed and used only as indicated in ERICO's product instruction sheets and training materials. Instruction sheets are available at www.erico.com and from your ERICO customer service representative. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
