

## Y644HSXT DIELESS HYPRESS™

### THE “1” CRIMP RANGE TAKING TOOL

Hydraulic Hand Operated Tool—  
11 Ton Crimp Force

#6 - 1000 kcmil Copper  
HYLUG™ Terminals and  
HYLINK™ Splices

#6 - 750 kcmil Aluminum  
HYLUG™ Terminals and  
HYLINK™ Splices

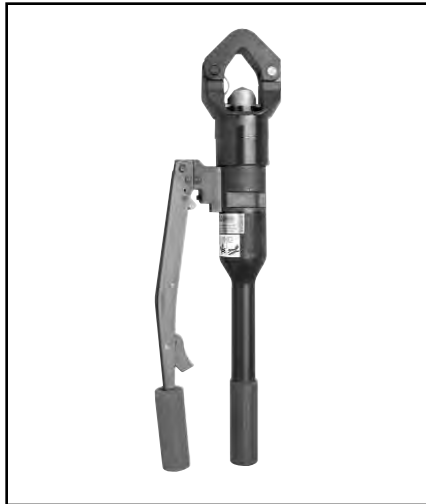

The Y644HSXT dieless HYPRESS™ is a hand operated 11 ton hydraulic crimping tool. Only 1 crimp is required for each wire termination for both long and standard length barrels on HYLUG™ terminals and HYLINK™ splices.

The Y644HSXT has a latch style head which provides easy tool removal from continuous conductor runs. The head rotates 355° relative to the handles and is mated to a patented rapid advance pump. The Y644HSXT weighs only 15 pounds and delivers 11 tons of crimping force. The result is easy terminating and splicing using BURNDY® HYLUG™ and HYLINK™ terminals and splices.

**Y644HSXT Dieless HYPRESS™ Range Taking Capabilities.** The following size HYDENT™ lugs and two way splices, when crimped with the Y644HSXT Dieless HYPRESS™ Tool, produce the following UL Listed range taking capabilities.

### BENEFITS

- Dieless system, eliminates the need to purchase and maintain dies.
- Patented rapid advance pump for faster crimps.
- Pressure relief “Pop-Off” valve provides audible indication that crimp is complete.
- Handle trigger drain for convenient ram retraction.
- 355° head rotation for versatile tool head positioning in tight areas.
- Easy inspection and positive identification is provided with the BURNDY® “S”.
- Comfort grip handles help ease fatigue with continuous use.
- Supplied with high impact plastic carrying case.
- 5-year limited warranty.
