

## Model 1068-00

## Suspended Ceiling Access Point Mount

Oberon's Model 1068-00 universal wireless access point ceiling mount is designed to provide a secure, convenient, and aesthetic mounting solution for most vendors wireless access points and DAS remote units. This aesthetic, white powder coated steel 2' x 2' ceiling tile-like mount locks the access point in place with a patent pending locking mechanism. The access point is attached to a vendor model specific mounting plate, and the plate is locked in place into the ceiling tile. Access point moves, adds, and changes can be performed without removing the mount from the ceiling. No ceiling tile cuts are required for installation. Upgrades are performed without accessing the air handling space above the ceiling.

Model 1068-00 shown (Clockwise) without Wireless Access Point, Ruckus AP, Aruba Networks AP135, and Cisco 3500

### Specifications:

- Locking ceiling mount designed for secure, aesthetic, low profile mounting of most vendor's wireless access points
- Interchangeable mounting plates permit migration or upgrades to different vendor's wireless solutions
- UL Listed and designed to meet NEC paragraphs 300-22 and 300-23 for plenum installations
- OSHPD approved OPA # 1638
- Construction: 18 ga. textured white powder-coated steel flange, 16 ga. aluminum backbox
- Patent pending locking mechanism, keyed alike, secures access point into the ceiling mount
- Size: 2' x 2' x 2" deep. Fits into standard (U.S.) suspended ceiling systems.
- Weight: 10.5 lbs (not including access point)
- Mount must be supported by the building structure independent of the suspended ceiling, per NEC paragraph 300.11.
- Contact your Oberon representative for the vendor specific mounting plate required. Mounting plates are available for leading wireless access points. Plates sold separately.

### Model 1068-00 Includes:

- (1) cable egress fire block kit (¾" Trade size conduit connector and fire block foam insert)
- (4) Hanger wires
- Mounting Instructions

**Model 1068-00**

**Suspended Ceiling Access Point Mount**

The 68-XXXX is the Vendor Specific Mounting Plate number. These are attached to the access point/DAS remote unit, which can then be locked into the 1068-00 ceiling mount. Select the appropriate mounting plate and order with the 1068-00.
