

# **Fast-Cure® Anaerobic Adhesive-Style Connectors**

## **APPLICATION**

Leviton's Fast-Cure anaerobic adhesive-style connectors are designed for quick and easy termination in the field. Fast-Cure connectors are available in singlemode and multimode versions in ST<sup>®</sup>, SC, FC, and LC styles. Fast-Cure connectors are designed for indoor and outdoor applications where reliability, durability, and ease of installation are an important consideration. Typical installations are in premise LAN environments, or anywhere adhesive-style connectors are specified.

Pictured (left to right): ST Connector, SC Connector, FC Connector, and LC Connector.

# **SPECIFICATION**

The Fast-Cure anaerobic adhesive-style fiber optic connector shall meet or exceed the requirements described in TIA-568-C.3 and 604 standards. Connector shall be field-polished, field-installable, and does not require a curing oven or proprietary tool to facilitate the termination of the fiber. Connector shall be available in LC, SC, FC or ST, single-mode or multimode configurations terminated on 900 µm buffered fiber or 3 mm jacketed fiber. Typical connector Insertion Loss shall be 0.2dB. Typical connector Return Loss shall be greater than 25dB (multimode) and 55dB (single-mode).

### FEATURES

- Typical termination in less than two minutes
- · Low insertion loss connection
- · Higher fiber retention than mechanical connectors
- No curing oven or proprietary tool required
- Compatible with MOS, QuickPort<sup>®</sup>, Opt-X<sup>®</sup>, and LightSpace<sup>®</sup> adapter plates
- Accessory for duplex clip sold separately

# **DESIGN CONSIDERATIONS**

- · Single-mode and multimode versions
- · Precision pre-radiused zirconia ferrules
- · Supports 900 µm buffered fiber or 3 mm jacketed fiber
- · High cable retention crimp for jacketed fiber
- · Recommended for indoor and outdoor usage
- Body of ST and FC connectors are metal

# **PERFORMANCE SPECIFICATIONS**

| Parameter                                 | Value                         |
|---|-------------------------------|
| Insertion Loss (Single-mode or Multimode) | Typical: 0.2dB<br>Max: <0.3dB |
| Return Loss (Single-mode)                 | Typical: >55dB                |
| Return Loss (Multimode)                   | Typical: >25dB                |
| Operating Temperature                     | -40 °C to +85 °C              |

### STANDARDS COMPLIANCE

- Meets TIA-568-C.3 performance requirements
- Meets TIA-604-2 (ST), -3 (SC), -4 (FC), -10A (LC) Connector Intermateability Standards
- · Meets GR-326; General Requirement for Single-mode Connectors
