Introduction

As the world's leading provider of open platform IP video management software (VMS), Milestone Systems offers a wider range of VMS products optimized for different types of deployment and usage. This document provides an in-depth comparable outline of Milestone's XProtect VMS products and the associated clients.

The document is intended as a technical sales tool with two primary purposes:

- Provide an overview of the features that each XProtect product provides
- Support the selection of the optimal product by offering a visible comparison between the various products in the XProtect product range

The document presents separate comparison charts for the XProtect VMS platform products and the XProtect clients, where each product category has an overview comparison chart, followed by a more detailed and comprehensive chart.

The following XProtect VMS platform products are covered:

- XProtect® Go
- XProtect® Essential
- XProtect® Express
- XProtect® NVR
- XProtect® Professional
- XProtect® Enterprise
- XProtect® Expert
- XProtect® Corporate

The following XProtect clients are covered:

- XProtect® Smart Client
- XProtect® Web Client
- Milestone Mobile

The document does not cover XProtect add-on products or Milestone Utilities.

The information in this document only provides basic information. Refer to the individual product specification sheets for a complete listing of all features for a given XProtect product.

Milestone reserves the right to change the product specifications without prior notice.

XProtect VMS products

Milestone offers the market's widest portfolio of IP VMS solutions spanning from easy-to-use small, single-server solutions to fully scalable advanced solutions for high-security surveillance and alarm centers. All products in the XProtect portfolio are designed based on the same powerful open architecture, which makes the XProtect products compatible with more IP cameras and video encoders than any other VMS manufacturers.

Each of the XProtect VMS products has been optimized to meet the specific needs in the different market segments in terms of:

- Ease of deployment
- Ease of use
- Scalability (number of cameras and single server to fully distributed deployment)
- Functionality level
- Integration of third-party applications

High-level XProtect VMS product comparison

The table below gives an overview of Milestone's XProtect VMS products and their key capabilities.

XProtect VMS Products/ Version	XProtect Go	XProtect Essential	XProtect Express	XProtect NVR	XProtect Professional	XProtect Enterprise	XProtect Expert	XProtect Corporate
Key Features	2.1	2.1	1.1	2.0	8.1	8.1	2013	2013
Type of deployment	Single-server	Single-server	Single-server	Single-server	Multi-server	Multi-site	Centrally managed and multi-server	Centrally managed and distributed sites
Number of connected cameras	8	26	48	8/16	64 ⁽¹⁾	Unlimited ⁽²⁾	Unlimited	Unlimited
Number of supported servers	1	1	1	1	5	Unlimited	Unlimited	Unlimited
Maximum numbers of users	1	5	5	5	Unlimited	Unlimited	Unlimited	Unlimited
Multiple video export formats	No ⁽⁴⁾	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Supports Milestone Mobile	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Supports XProtect Web Client	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Smart Search	-	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Alarm Manager	-	Yes ⁽⁴⁾	Yes ⁽⁴⁾	Yes ⁽⁴⁾	Yes ⁽⁴⁾	Yes	Yes	Yes
Third-party application integration ⁽⁵⁾	-	-	Yes	Yes	Yes	Yes	Yes	Yes
Support for video analytics ⁽⁵⁾	-	-	Yes	Yes	Yes	Yes	Yes	Yes
Archiving to network storage	-	-	Yes	Yes	Yes	Yes	Yes	Yes
Map function	-	-	-	-	-	Yes	Yes	Yes
Microsoft Active Directory support	-	-	-	-	-	Yes	Yes	Yes
Centralized management	-	-	-	-	-	-	Yes	Yes
Flexible event rule engine	-	-	-	-	-	-	Yes	Yes
Edge Storage	-	-	-	-	-	-	Yes	Yes
Failover Recording Servers	-	-	-	-	-	-	-	Yes
Supports XProtect Smart Wall	-	-	-	-	-	-	-	Yes
Milestone Interconnect™	-	Remote site	Remote site	Remote site	Remote site	Remote site	-	Central site
Milestone Federated Architecture™	-	-	-	-	-	-	Remote site	Central/Remote site

Notes:

- (1) XProtect Professional supports up to 64 cameras per server and up to five servers
- (2) For most installations larger than 250 cameras, Milestone recommends using XProtect Expert or XProtect Corporate
- (3) Media Player (AVI) format only
- (4) Not full alarm management functionality
- (5) Using Milestone Integration Platform (MIP)

Detailed XProtect VMS products comparison chart

The table below gives a detailed listing of all major features in the different XProtect VMS products. The features are organized in to categories for increased readability.

XProtect VMS Products	XProtect Go	XProtect Essential	XProtect Express	XProtect NVR	XProtect Professional	XProtect Enterprise	XProtect Expert	XProtect Corporate
Features	2.1	2.1	1.1	2.0	8.1	8.1	2013	2013

Notes:

- (1) XProtect Professional supports up to 64 cameras per server and up to five servers
- (2) For most installations larger than 250 cameras, Milestone recommends using XProtect Enterprise, XProtect Expert or XProtect Corporate
- (3) Supported via dedicated device integration. The figure does not include different device variations in vendor's device series and non-listed OEM devices, or devices that are supported via ONVIF and PSIA drivers and Milestone's universal driver. Information is based on the support in Device Pack 6.6. Please refer to Milestone's website (www.milestonesys.com) for latest figures
Includes various devices in series and non-listed OEM devices.
- (4) No more than four USB cameras can be added
- (5) Actual effective storage available will vary dependent on the stored video format and resolution
- (6) XProtect Smart Wall subject to separate application license
- (7) Help system and in English only
- (8) Installation and user interface. Help system and in English only

Clients for XProtect VMS products

For easy access to video surveillance, Milestone offers three flexible user interfaces: XProtect Smart Client, XProtect Web Client and Milestone Mobile. Compatible with all XProtect VMS products, the clients enable users to access live and recorded video to gain real-time situational awareness and investigate incidents. XProtect clients share common design and basic functionalities so users can seamlessly switch between the interfaces as needs require.

XProtect Smart Client is the primary user interface for security operators and other daily users. Its adaptable user interface provides both basic and advanced users with an interface optimized for their particular tasks. XProtect Web Client provides flexible access to video surveillance from any browser and can be used as the simplified daily viewing client for users with basic needs. Users can access surveillance on-the-go with Milestone Mobile, an application for viewing, playing back and exporting video from smartphones and tablets. Available for download on the App StoreSM and Google PlayTM, the application gives instantaneous access to XProtect systems via Wi-Fi, 3G or 4G connections.

High level XProtect client comparison

The table below gives an overview of the different XProtect clients that can be used together with Milestone's XProtect VMS products.

XProtect client/ Version	Milestone Mobile	XProtect Web Client	XProtect Smart Client
Key Features	2013	2013	2013

Notes:

- (1) Subject to separate upgrade to Milestone server 2.5
- (2) XProtect Smart Wall subject to separate application license
- (3) One camera available as main view item, additional view items available as thumbnails
- (4) Exported AVI files have Milestone logo watermark.
- (5) Feature only applicable to exports in XProtect format
- (6) Image Server in XProtect Go, XProtect Essential, XProtect Express, XProtect Professional and XProtect Enterprise
- (7) Language not included in single step installer, but only available as add-on installation
- (8) Milestone Mobile server localized to same languages as the management interface and documentation is only available in English
- (9) Only user interface is localized; user's manual and online help is not localized
