Notes

Fit – and forget! Assembling the new WAGO screwless end stop is as simple and quick as snapping a WAGO rail-mount terminal block onto the rail. Without using any tools. This allows rail-mount terminal blocks to be safely secured, at low cost, against any movement on all carrier rails DIN 35 acc. to DIN EN 50022 (35 x 7.5 mm; 35 x 15 mm). Entirely without screws! The “secret” of the excellent tight fit lies in the two small clamping plates which keep the end stop in position, even if the rails are mounted vertically. Simply snap on and forget! In addition, costs are considerably reduced when using large numbers of end stops. A further advantage is that three marker receptacles for all WAGO marker systems for rail-mount terminal blocks and a snap-in hole for WAGO adjustable height group marker carriers offer individual marking possibilities.
