BROADCAST SOUND & SECURITY TILT PANEL MOUNT

Tilt Out Wall Mounts are ideal for providing mounting and access to audio and video equipment, controls, and connections in schools, hospitals, churches, offices, restaurants, and hotels. The three position tilt out rack allows for easy operation and servicing of equipment. Provisions for mounting low-voltage devices, connectors, and standard electrical boxes make operation of equipment even more convenient.

Features:

- Ability to be surface or recessed mounted to the wall
- Back panel allows connection of conduit and pulling of cables before main body is mounted
- Accepts conduit sizes 1/2", 3/4", 1", and 1 1/2" - Four knockouts for each size are provided
- Recess version protrudes only 2" and accommodates finished walls from 0" to 1" thick
- Unique "spare" 1 RMU in bottom of back panel is perfect for power strip mounting
- Maximum equipment depth is 20" in every rack mount position
- Vented top and bottom allows for natural airflow and cooling
- 3-Position tilt out rack is lockable, yet easy to access, to close, and to service:
 - Closed / Locked
 - Operate / 15° Open
 - Service / 90° Open
- Automatically catches at each position for convenience
- No tools required for opening to service position
