# Model 1052-AP105

Suspended Ceiling Enclosure

Oberon's Model 1052-AP105 wireless LAN access point enclosure is a locking, 2' x 2' ceiling tile enclosure designed specifically to conveniently mount and secure the Aruba Networks AP-105 wireless access points. The enclosure is based on Oberon's popular 1052-00 universal wireless access point enclosure, with a door designed specifically for Aruba Networks AP105 wireless access point. No ceiling tile cuts are required for installation. Just mount the access point into the door, place the ceiling tile enclosure in the ceiling, secure the enclosure to the ceiling support structure, and the access point is conveniently and aesthetically secured in the ceiling. Upgrades to different styles of access points are achieved by simply unlocking and replacing the door.

1) Model 1052-AP105 shown with Aruba Networks AP105 access point (not included) 2) Exploded view of the door, access point, and bracket

Specifications:
