

Model CCOAPi-SKIN

Skin for Cisco WAPs

Oberon's CCOAPi-SKIN allows you to customize the appearance of the popular Cisco 1040, 1140, 3500i, 3600i series wireless access point. The skin is made from an RF transparent plastic, and can be attached directly to the Cisco 1040, 1140, 3500i, or 3600i. The CCOAPi-SKIN is paintable so allows you to customize the color of the access point to partially conceal the access point or compliment interior color schemes.
