WIDE-AREA EMERGENCY BROADCAST SYSTEM

WEBS-RETRO-MT/R4- WEBS® Retro Kit for ETP-MT/R OP 4 Towers

Description

The **WEBS-RETRO-MT/R4** is a kit that converts an existing ETP-MT/R OP4 or ETP-MT/R OP5 Tower to a highly visible WEBS®-capable Mass Notification Unit.

Features

- Supplements an Emergency Phone Tower with a highly effective Wide-Area Emergency Broadcast System
- Concealed high-power speakers provide 360º coverage
- Amplifier and speakers all mount inside retrofit kit and the tower
- Separate volume controls for each speaker
