

Swivel HDMI® Cables

HDSW3	3'
HDSW10	10'
HDSW15	15'

Features

HDMI cables are used to connect together HDMI-compliant sources and devices. These cables are available in various shapes, lengths and with specialty connectors.

As useful of a technology as HDMI is, the means of delivering that technology can often be unforgiving in practice if you are trying to connect devices near the maximum length of your cables. Enter swivel cables! With a connector capable of swiveling 360 degrees around and 180 degrees up and down, there has yet to be an HDMI input this cable couldn't tame.

These cables support the following:

- All resolutions up to and including 1080p
- 3D signals
- 100 Mbps ethernet signal transfer between enabled devices
- High-definition audio formats
- 4K ultra
- Bi-directional audio
