

IS-WB Wall Mount Boxes

Stainless Steel Emergency & Assistance Wall Mount Boxes

DESCRIPTION:

The Stainless Steel Wall mount box provides an easy-to-see heavy duty enclosure for an IS Series call station, used for Emergency and Assistance applications. Installed in parking garages, airports, campuses, malls, and a wide variety of locales, these stations provide proper signage and specifications to meet ADA requirements. The beacon is always lit for easy visibility; strobe flashes during an emergency call-in.

ADA (28 CFR Part 36 section 4.4.1) states that an object must not protrude more than 4" if mounted higher than 27". Since these units have the potential to include a camera, mounting height restrictions are avoided with this streamline design, while call button mounting height guidelines can still be met.

Any Aiphone IS series station can fit into the wall mount box. Signage and strobe cover configuration is selectable by the customer.

FEATURES:

- Made of 12 gauge stainless steel
- Beacon/Strobe light on top
 - option for cage or full enclosure
 - Beacon stays lit in standby mode
 - Beacon flashes when call is placed
- Signage on sides available in either **EMERGENCY** or **ASSISTANCE**
- ADA Compliant: 4" depth to meet ADA requirements to allow mounting higher than 27", and proper signage and call button mounting height

MODELS:

- IS-WBCA:** Cage with Assistance lettering
- IS-WBCE:** Cage with Emergency lettering
- IS-WBHA:** Hood with Assistance lettering
- IS-WBHE:** Hood with Emergency lettering
