

Standard Series SPDIF Digital Audio Cable

Comprehensive Standard Series cables provide exceptional value while still providing legendary Comprehensive quality and reliability. Standard Series SPDIF Audio Cables have a RCA male plug connector on each end. Low loss construction allows for superior signal transfer and audio reproduction. Xtra flex jacket allows for easy installation, especially around corners while a molded strain relief provides maximum durability. 85% shielding provides outstanding rejection of EM and RF interference. RoHS compliant. Lifetime Warranty.

Features

- RCA male connector on each end
- Low loss construction for superior signal transfer
- Molded strain relief for maximum durability
- X-tra flex jacket for easy installation
- Exceptional value and Comprehensive reliability
- RoHS Compliant
- Lifetime Warranty

Specifications

Connector Type 1: RCA Male
Connector Type 2: RCA Male
Connector Finish: Gold Plated
Performance Grade: Good
Gauge: 22 AWG
Center Conductor: Stranded Oxygen Free Tinned Copper
Dielectric: Chemistry Foam PE
Shielding: <95% Tinned Copper Braid
Jacket Type: Xtra-Flex PVC
Jacket Color: Black
Impedance: 75 Ohms
RoHS Compliant: Yes
Warranty: Lifetime
