# VERTICAL MOUNTING RAILS

Tapped 12-24 & Square-Punched Mounting Rails

CPI's accessory vertical mounting rails provide additional mounting rail options for MegaFrame® and SlimFrame® Cabinets. Select full or half rack sizes and install using captive bolts in the horizontal mounting rail.

- Tapped rails are made of high-strength aluminum and are best for network cabinets holding interconnect equipment, switches and routers
- Square-punched rails are made of steel and feature square-punched holes for most servers and data storage equipment
- Both styles feature universal 5/8"-5/8"-1/2" (15.9 mm -15.9 mm - 12.7 mm) alternating hole pattern
- Each kit includes two mounting rails and 5/16 -18 hex nuts for mounting rails to cabinet
- RAck-mount unit spaces simplify equipment installation

Note: There are two pair of additional captive bolts per cabinet — allowing two pair of vertical mounting rails to be added to each cabinet.

Part Number	Description	Shipping Weight
12460-X01	28"H Full Height, #12-24 Tapped	4 lb (1.8 kg)
12630-X01	28"H Full Height, Square-Punched	4 lb (1.8 kg)
12460-X03	48"H Full Height, #12-24 Tapped	6 lb (2.7 kg)
12630-X03	48"H Full Height, Square-Punched	6 lb (2.7 kg)
12460-X05	72"H Full Height, #12-24 Tapped	7 lb (3.2 kg)
12630-X05	72"H Full Height, Square-Punched	7 lb (3.2 kg)
12460-X06	78"H Full Height, #12-24 Tapped	8 lb (3.6 kg)
12630-X06	78"H Full Height, Square-Punched	8 lb (3.6 kg)
12460-X07	84"H Full Height, #12-24 Tapped	8 lb (3.6 kg)
12630-X07	84"H Full Height, Square-Punched	8 lb (3.6 kg)

Part Number	Description	Shipping Weight
12450-X05	72"H Half Height, #12-24 Tapped	4 lb (1.8 kg)
12631-X05	72"H Half Height, Square-Punched	4 lb (1.8 kg)
12450-X06	78"H Half Height, #12-24 Tapped	4 lb (1.8 kg)
12631-X06	78"H Half Height, Square-Punched	4 lb (1.8 kg)
12450-X07	84"H Half Height, #12-24 Tapped	4 lb (1.8 kg)
12631-X07	84"H Half Height, Square-Punched	4 lb (1.8 kg)
