

## Model AHAP330-SKIN

## Vanity Cover (Skin) for Aerohive Networks AP330 WAP

Oberon's AHAP330-SKIN allows you to customize the appearance of the popular Aerohive Networks AP330 wireless access points. The skin is made from an RF transparent plastic, and can be attached directly to the Aerohive Networks AP330 wireless access point. The AHAP330-SKIN is paintable so you can customize the color of the access point to partially conceal the access point or compliment interior color schemes. Coloring the skin does not void the manufacturer's warranty.

Oberon Model AHAP330-SKIN shown with Cisco 3700 wireless access point (not included)

### Specifications:

- Vanity cover for Aerohive Networks AP330 series wireless access points
- Fabricated from textured UL 94-5VA ABS plastic
- The skin is virtually transparent to access point wireless signals
- Attaches to access point with mushroom head fasteners (included)
- Standard color is black, with textured semi-gloss finish
- Skins are paintable using an enamel spray paint such as Krylon (do not use oil based paint or metallic paint) and the surface does not need to be treated

### Model CCOAPi-SKIN Includes:
