Item Description

Automation Studio Software

Features and Benefits

- Automation Studio is a software package developed to allow customization of graphic interfaces and foreign language support for OmniTouchPro Software on third party Touchscreens

- With Automation Studio, complete control is gained over look, feel and function, IP or analog surveillance cameras are set up, and the Leviton Security & Automation Home Theater Extender 2 (HTX2) can be configured

- With Automation Studio, vivid, user-friendly graphic interfaces can be developed based on a homeowner's lifestyle and interests. Go beyond standard default screens by customizing third party Windows touchscreen interfaces with Leviton Security & Automation Automation Studio software

- Automation Studio provides a WYSIWYG (What You See Is What You Get) editor that allows you to create interfaces in a drag-and-drop environment
