

# 17A00-9

## Omni Security Systems

### Brand Features

Omni Wired Accessories allow the Omni security & automation system to expand beyond just a security system. Add hard-wired controls for control of temperatures, lighting, and more. Even give your home a "voice" with the two-way voice module. Receive auditory confirmation when a door has opened or a reminder that it's trash night.

### Item Description

16 Zone / 16 Output Expansion Board

### Features and Benefits

- 16 input/16 output expansion board on a universal mounting plate with accessory kit and instructions for installation in structured wiring enclosures
- Adds sixteen voltage outputs for control and sixteen inputs for additional security/fire zones, auxiliary or temperature inputs
- Can be mounted up to 1000 feet from the main controller and requires its own power supply and battery. It reduces wiring use in larger installations
- It is commonly used for sprinkler systems, control of pumps, motors, remote control circuit breakers, and additional security/fire zones
- Up to four 16 input/output expansion boards can be used in conjunction with the OmniPro II or Lumina Pro automation controllers
- It comes with a lock set with two keys
- For use with a Lumina Pro or OmniPro II home control system
